

HOW TO DETERMINE YOUR RING SIZE

RING MEASUREMENTS ARE VERY PRECISE.

Carefully follow these instructions to obtain an accurate measurement.

CONFIRM PRINTED PAPER SIZE

1. **Prior to printing**, ensure that Page Scaling is set to "None" on your print dialog box. (To open the print dialog box, press CTRL+P.)
2. **Measure the bar below.** It must be exactly 1.5 inches or 30 mm long:

MEASURE CURRENT RING

1. Select a ring that properly fits the intended finger. Engagement and wedding rings are traditionally worn on the ring finger on the left hand in the United States.
2. Place the ring over the circles below, matching the inside edge of the ring to the circle nearest in size. This measurement refers to the inside **diameter** of the ring.
3. If the ring falls between two sizes, order the larger size.

MEASURING YOUR FINGER

Your ring should fit your finger comfortably; snug enough so that it will not fall off, but loose enough to slide over your knuckle.

Finger size changes depending on the time of day and the weather. For best results measure your finger size:

1. At the end of the day and when your fingers are warm (Fingers are smaller in the early morning and when cold.)
2. Measure finger size 3 to 4 times to eliminate an erroneous reading.

Avoid using string or paper to measure ring size as these materials can stretch or twist, yielding an inaccurate measurement.

INTERNATIONAL SIZE CONVERSION

If ordering from outside of the US or Canada, determine your ring size according to your country's standard. Then use the International Ring Size Chart to convert to the corresponding US ring size to place your order.

MEASUREMENTS MATCH THE
INSIDE EDGE OF THE RING.
